Offer

Ambion System INTELLIGENT SYSTEM FOR CONTROL AND MONITORING

Do you work with perishable products:

meat and meat products, ice cream, milk and dairy products,

pharmaceuticals, cosmetics or any other assortment sensitive on temperature?

Do you have a problem with precisely monitoring and record the temperature at any moment?

Avoid major losses for your business due to deterioration of the products without continuous insight in temperature and no alarm for its concession

AMBION is the solution for all your needs and dilemmas!

A independent device for accurate and timely measurement of temperature on more measuring points, with great opportunities for setup according to your needs.

With AMBION you have the possibility of measuring other ambient parameters: moisture, dust, CO2, noise, light – according to your needs
